

3.00 Tuff Tender

The little boat with big boat stability and versatility. The 3.00m Tuff Tender is ideal as a tender, for checking the crab pots or doing a spot of estuary fishing.

3.00 Tuff Tender

The little boat with big boat stability! The 3.00 Tuff Tender was originally designed for use as a tender for larger craft and is a popular choice in this category as polyethylene is not abrasive against gel coated and painted surfaces.

3.00 Tuff Tender - 3.00 Tuff Tender

The little boat with big boat stability!

The 3.00 Tuff Tender was originally designed for use as a tender for larger craft and is a popular choice in this category as polyethylene is not abrasive against gel coated and painted surfaces.

The ever popular 3M Tuff Tender is the first model in the range to receive the Aquathene treatment and has shed an amazing 20kg. This great little dinghy now weighs just 67kg, can still accept a 15hp outboard and comes with a four year warranty. In comparison the Quintrex 3.1m Dart weighs 61kg but can only accept an 8hp outboard and is only covered by a three year warranty.

However, due to its awesome stability and safety attributes born from its dual skin and tri hull design, it has become an increasingly accepted option as a small fishing boat for protected waterways and freshwater impoundments.

The recessed stainless steel handles make it easy for two people to carry, while also providing lifting points for davits.

The moulded anchor well, cleat and stainless steel shackle ensure easy towing, anchoring and mooring.

Survey Standard

Length:	3.00m
Length (boat/motor/trailer):	4.30m
